Introduction

This release of RayFlow Client 4.0 provides both, functional improvements, as well as fixes for known issues from prior versions. RayFlow Client is available as a stand-alone product as well as can serve as the backbone for RaySuite Enterprise Solution.

Enterprise Application Lifecycle Management

Visit www.raynet.de for further information regarding the product and current community incentives.

Raynet is looking forward to receiving your feedback from your RayFlow Client experience. Please contact your Raynet service partner or write an e-mail to sales@raynet.de to add your ideas or requirements to the RayFlow Client development road map!

New Features & Improvements

Grouping of Data Fields

With this version of RayFlow client, the data fields belonging to a task are grouped in their pre-defined groups. Previously, this functionality was only available with RayFlow Web Client. With this improvement, the effort required to search and edit the properties of a task will be significantly reduced.

Resolved Issues

Following issues have been resolved in RayFlow Client 4.0:

RF-1942 - File upload on Create phase wrongly journalised to First phase

RF-2200 - Client dashboard: Obsolete names at (quick) reports

RF-2420 - Client: Sub-phases - Phase icon bad aligned

RF-2518 - Export function is not working

RF-2632 - Client: Project Manager cannot edit foreign appointments

RF-2718 - Client Comments - Create phase is not journalized

RF-2662 - Client - Default sorting in phase view is composed of 3 columns (Date, Schedule and Category)

RF-2743 - MSI-Function for filling datafields does not work(Client)

RF-2753 - First run of rayflow client takes very long > 5 minutes

RF-2783 - Client, SLA column is named "Schedule"

RF-2784 - unfavorable space relationship in the task list

RF-2792 - Client, phase refresh takes too long

RF-2825 - Unassigned user causes error

RF-2828 - Client - Projects in selection project window are ordered by GUID

RF-2863 - Upload file 2GB+ with client fails

RF-2870 - The RFC waits when a tool is run in standalone mode

Known Issues

This lists the known issues added by this release of RayFlow Client:

RF-2152 - Can't connect to server if a proxy configuration script is used

RF-2209 - Wrong error message on login attempt of blocked user

RF-2804 - Package Path auto fill function don't work for unchecked overwrite option
